

## DeleteFile

*(Information and examples taken from the DroidScript documentation)*

### Description

The **DeleteFile** method delete a file from internal or external file storage.

```
app.DeleteFile( fileName );
```

### Example

```
function OnStart()
{
    app.WriteFile( "/sdcard/wftest.txt", "Hello" );
    app.DeleteFile( "/sdcard/wftest.txt" );
}
```
